## AFTER FLEEING PREY ONE MILLION OF MEN.

President and His Party Capture a  
Number of Wolves.

### DOGS ARE EFFECTIVE

Chief Executive Ingratiates Himself  
With Cowboys by Dismounting  
at a Buffalo Wallow and  
Quenching His Thirst.

Frederick, Okla., April 11.—President Roosevelt and about fifteen other men, accompanied by some forty dogs, started at an early hour Monday in search of wolves. Soon a hungry looking animal was seen loping along. At sight of the prey both horses and dogs redoubled their efforts, and soon the foremost of the pack was up with the wolf. True to its kind, the wolf turned to beat off its assailants, but it was soon overpowered by the oncoming dogs, and all was over with the wolf when the horsemen arrived on the scene. Two other wolves were dispatched in somewhat the same manner before dinner.

The morning chase gave the hunters a ravenous appetite and a picked yearling from the Waggoner herd, which was dressed and taken out to camp, proved to be none too much for the entire party, including the Indian allies. The morning's chase proved that the game was too uneven for the coyotes with such a large number of hunters and dogs, and consequently only about ten horsemen and their dogs were taken out in the afternoon.

When the courier left camp at an early hour in the afternoon one wolf had already fallen a prey to the merry hunters.

The president won the heart of the cow puncher when at one point, seeing some water standing in a buffalo wallow, he urged his horse to the spot ahead of the dogs and, springing from the saddle, lapped up the refreshing liquid in good old cowboy style.

### COLORADO CAMP.

President Will Be in Colorado a Week  
or Ten Days.

Newcastle, April 11.—The big pack train and camp outfit for President Roosevelt's party received hurry-up orders to move and guides "Jake" Borah and John Goff headed the procession of nearly 100 horses and sixty dogs for the Johnson ranch, about twenty miles south of Newcastle, where camp will be pitched for at least a week or ten days. As soon as the camp is well established, the extra men, as well as several ranchmen and trapper who will be engaged, will scour the country in search of bear tracks. They will carefully note all the signs and locations so that when the president starts out there will be no delay in looking for tracks.

Citizens of Newcastle are planning an ovation to the president next Saturday morning, which will be subject to his approval. It is proposed that a grand parade be held in which President Roosevelt shall ride so he can be seen by the citizens. At the head of the procession will be a monster brown bear in a cage. This animal was recently captured and he is now at the residence of Frank Hilliard, where he has succeeded in killing at least a dozen dogs and injuring several men who ventured too near him.

Goff and Borah will put their pack hounds in a corral and the bear will be given an hour's start for the hills. Then the packs will be set on the trail and President Roosevelt, Dr. Lambert, Philip B. Stewart and the guides will follow in hot pursuit. This is planned to be the official start of the hunt.

### TWENTY INJURED.

Train Crashes Into Another With Dis-  
astrous Results.

Kinsley, Kan., April 11.—Twenty or more passengers were injured, but none killed, by a collision of the Chicago express and San Francisco limited trains of the Atchison, Topeka and Santa Fe railroad at 10 o'clock Monday night. Both trains were east bound. No. 8, the Chicago express, was standing at the station when No. 4, the limited, crashed into it at high speed. The engine of the second train plowed into the last Pullman sleeper of the other train, demolishing it. The cars in front also were badly damaged and the limited's locomotive and part of the train wrecked. The railroad officials put the injured in a car and took them to the west end of the yards. The rear car of No. 8 was a deadhead chair car. This was cut through from end to end by the heavy engine and the Pullman ahead of this was thrown off the track. Both immediately took fire and with the chair and mail cars were entirely consumed. The engineer of No. 4 is uninjured but the fireman is seriously hurt, as is also a porter on No. 8 and a cook on the limited. The collision was caused, it is said, by the rear brakeman of No. 8 not going back to flag No. 4.

### SNAKE INDIANS ANGRY.

Threaten to Kill Red Men Who Have  
Disposed of Lands.

Kingston, I. T., April 11.—There is great excitement at Shay, six miles southeast of here. It is reported that there are thirty Snake Indians in the neighborhood and serious trouble is expected. Farmers were in for guns and ammunition.

Indians threaten to kill all the Indians who have sold their lands and intend burning their property.

Believed Japan's Fighting Force Is  
to Be Thus Augmented.

### PLAN IS KEPT SECRET

Tokio Advice Are Artillery Will Be  
Superior to That Owned by the  
Russians and Aggressive  
Action to Be Taken.

Tokio, April 11.—Japan is meeting the Russian plan of reorganization and reinforcement of its Manchurian army with an extensive expedition from its own military organizations. Details and figures are carefully concealed of what seems to be a plan to double the present army units, but it is reliably estimated that next autumn the total military organization will exceed 1,000,000 men actually employed in the field. Fighting forces are roughly estimated at 700,000 men with increases largely in infantry and artillery, although enlargement in the cavalry branch is also contemplated. As a result of manufacture at arsenals in Japan, together with captured and purchased guns, it is predicted this year will see the Japanese artillery superior to that of the Russian in quality as well as numerically, and it is confidently believed the Russians will be incapable of overcoming these numerical disadvantages.

Wherever railway improvements are possible they will be carried out, when Japan will be sufficiently strong to take and hold Harbin and simultaneously continue operations against the Russian forces to the eastward of that city.

### BRITISHER STABBED.

Two Workmen Fall Victims to the Ven-  
geance of Other Poles.

Lodz, April 11.—James Ratcliffe, a British subject, and manager of the Posenaukisk Cotton mill, was stabbed while returning from a mass celebrated to commemorate the end of the strike. His assailant escaped.

Two workmen were found stabbed to death Monday. It is supposed they were non-strikers and that they were murdered by strikers.

### GRISCOM CABLES.

State Department Advised of Closing  
of Kelung Port.

Washington, April 11.—Minister Griscom, at Tokio, has cabled the state department that he has been advised of the closing of Kelung to foreign ships until further notice. Kelung is a port on the north end of the Island of Formosa. It is believed here the action of the Japanese government in closing Kelung indicates that this port will be used by Admiral Togo as a base for his fleet.

### Four Passed Eastward.

London, April 11.—A telegram from Singapore reports that four supposed colliers passed there going east April 10. These are presumed, in shipping circles, to be the advance guard of the sixteen Hamburg-American line steamers chartered to act as supply ships to the Russian Second Pacific squadron.

### Ordered to Proceed.

The Hague, April 11.—The Dutch East Indian squadron is said to have been ordered to proceed to Anambas Island, where the Russian squadron which passed Singapore April 8 is anchored, with the view to assure observance of neutrality.

### SLEW A SNAKE.

President Leaped From Horse and Dis-  
patched Rattler With a Quirt.

Lawton, April 11.—The president's trip Sunday across the reservation from the west gate to the camp was over a direct route regardless of roads. It lay over waving grass, up hill and down hill, through thicket and fence and along the winding river that severs the prairie lands from the reservation. The party was piloted by Bill Sic, a deaf and dumb cowboy who for years has worked on the leading ranches of the southwest.

The president rides a large black horse supplied by Waggoner & Burnett. His hunting attire consists of a light corduroy coat, light woolen trousers with buttons on the side, a blue colored cotton shirt and a white broad-brimmed hat. The president ate his first dinner in the reservation at the cow camp of Waggoner & Burnett Sunday. The party sat around the end of the chuck wagon on crude improvised seats in typical cowboy style. Early Sunday morning, while out exercising, the president encountered a huge rattler coiled up in the grass. Leaping from his horse, he quickly reversed his riding quirt and with the lead end killed the spewing monster.

### FATAL INITIATION.

Deplorable Accident That Occurred in  
an Arkansas Lodge Room.

Little Rock, April 11.—While Ebenezer Runyan was being initiated by the local lodge, Knights of Pythias, at Fetezenthal, Ark., he was shot and instantly killed. Charles Filler, an officer of the lodge, was officiating at the initiation and it is said used a revolver which in some mysterious way had been loaded, although it was supposed to contain blank cartridges. The bullet entered Runyan's brain, causing instant death. The lodge broke up in consternation.

New York, April 11.—While Camillo Saroni, nineteen years of age, lay sleeping in his home at Brooklyn, a man broke through a rear window of the house and cut the youth's throat, almost severing his head. Saroni died shortly after the deed was discovered. Police began searching for Paul Catalino, by whom Saroni was employed.

### STRUCK BY LIGHTNING.

Damage to Warehouses Estimated at  
Two Hundred Thousand Dollars.

Huntington, W. Va., April 11.—A fire started by lightning striking Lade Bros.' large warehouse early Tuesday morning and caused damage estimated at \$200,000. Before the firemen were on the ground the adjoining warehouse of the United States Stogie company was in flames. Three other buildings were also consumed.

### Lightning Kills Man and Horse.

Vicksburg, Miss., April 11.—During a heavy thunder storm William Alverson, twenty-two years old, was instantly killed by lightning. The horse on which Alverson was riding was also killed.

Men's Furnishers

A TRUE APPETIZER AND TONIC.

**Mi-o-na Will Make You Feel Hungry and Hearty, and Give Strength and Vitality.**

Ask any friend who looks thin, pale, and out of health how many meals he or she eats a day, and the chances are that the answer will be "Not over two, and I don't feel hungry then." The plump, rosy, and robust eat three square meals daily, and their perfect health is due to a strong stomach and digestive system, as such a system takes out of the food all those elements that make pure blood, and give nourishment and vitality to the body.

The one appetizer and tonic that should be taken is Mi-o-na, the only agent known that will strengthen the stomach and digestive system, and put them in such perfect working order that they will digest easily and naturally all the food that is eaten, and send you to the table positively hungry for the next meal.

Without a strong stomach digestion will be poor, the blood impure, and serious liver and kidney troubles result, causing headaches, spots before the eyes, dizziness, sleeplessness, nervousness, irritability, a furrowed tongue and bad breath, all of which can be readily overcome by the use of Mi-o-na. (costing but 50c a box), as it goes right to the foundation of perfect health, the stomach.

Scores of leading people in this state, including editors, ministers, bankers, and their families, gladly testify to the tonic, strengthening and health giving effects of Mi-o-na. Furthermore, E. J. Jenkins, one of the most reliable druggists in this section, sells Mi-o-na under a guarantee to refund the money if it does not produce satisfactory results.

The legislature is going to adjourn with a great deal of important work unfinished. Evidently much time has been frittered away, and a special session will be necessary. If the membership was cut down one-third we believe more work could be accomplished in the given time.

### VOTE RECONSIDERED.

Resolution of Union Was Finally Passed in Lower House.

Austin, April 11.—Representative Union Tuesday called up the motion to reconsider the vote by which his joint resolution providing for an increase in the pay of the members of the legislature, with an amendment prohibiting any free railroad transportation or franking privilege, was defeated. The motion prevailed and the resolution passed finally in the house by a vote of 101 to 13.

The house refused to concur in the senate amendments to the Bowser bill taxing gross premium receipts of insurance companies, and a free conference committee was appointed.

Bill passed finally in the house placing annual occupation tax at \$500 on cold storage establishments in local option districts. House also passed finally bill providing that no local option election, after previous similar election, should be held until two years after publication of final notice declaring result.

Another effort was made in the house to take up the Cranke bill raising ad valorem tax rate, but it failed. In the senate a petition was received from citizens of Houston county asking for repeal of Colquitt tax law, on the ground that it has failed in its purpose.

Constitutional amendment by Senator Looney to give counties greater power in enforcing local option law was killed in the senate by refusal to take it up.

Lieutenant Governor Neal appointed the following free conference committee on the Kennedy gross receipts bill: Hanger, Looney, Meachum, Stafford and Willacy.

Senator McKamy's county auditor bill passed finally in the senate and is now in the house. The bill provides for the creation of the office of county auditor in counties having cities of over 25,000 people. The bill will apply to five cities.

### IN CRITICAL STATE.

Italian Chained With Injuring Aged Man Taken to Beaumont.

Sour Lake, April 11.—James H. Smith, the aged white man who was horribly cut on the face Saturday night with a hand ax, has been unconscious and his condition is critical.

The Italian who is charged with the deed was carried to Beaumont for safe keeping.

Smith was a watchman and went to a fruit stand to purchase fruit. He alleges that he was there attacked by the Italian, who wielded a small ax and inflicted a number of deep cuts on the head and face of Smith.

Afterward the Italian created considerable commotion. It is alleged, by discharging his revolver at intervals, but he offered no resistance to arrest.

### JUMPING JONES.

Dallas Fireman Breaks World's Record Skipping the Rope.

Dallas, April 11.—Charlie Jones, a member of the Dallas fire department, has broken the world's record for consecutive rope jumping, going 4040 times in fifty minutes without stopping. The fact that Jones weighs 220 pounds makes his feat more remarkable. Some weeks ago he fell from a second-story window without being injured.

### Life Term Twice.

Huntsville, Tex., April 11.—Wright Terry entered pleas of guilty to murder of Dr. Gary and C. B. Eagle, latter a printer, at Groveton in 1902. In each case juries gave him life sentence.

### FOUR CHILDREN CRIMATED.

Terrible Calamity That Happened During Burning of a House.

Clarksburg, W. Va., April 11.—The home of George T. Maull, on West Baltimore street, was entirely destroyed by fire early Tuesday and four of his children burned to death. The parents, with a fifth child, barely had time to escape from the burning building. The charred bodies of the four children have been recovered.

### SAVED BY SOMERSAULT.

Girl Thrown High in the Air Fell Just in Front of Engine.

Laramie, Wyo., April 11.—A little girl named O'Connor has had a remarkable escape from death beneath the wheels of a locomotive. The child, with two others, was crossing the Union Pacific tracks on her way to school. Her companions passed in front of an approaching freight train and called to her to follow. She hesitated and then, when the train was barely ten feet away made the dash. Directly in the center of the track her feet slipped and she fell on her hands and knees. The pilot of the locomotive struck her and threw her into the air, where she turned a complete somersault and again fell on the track. The engineer meanwhile had reversed and the locomotive stopped with the pilot over the child's body. Had the engine gone another foot she would have been crushed to death. She was found to be severely bruised.

### THROAT OPENED.

Wonderful Operation in Which Ends of Vein Were Tied.

New Haven, Conn., April 11.—Edward P. Holton of Newport, R. I., a Yale medical student, who was suffering from a tubercular affection of the jugular vein, has had his throat opened by general hospital surgeons, who clipped out the affected portion of vein and tied the two ends together. The patient rallied and will undoubtedly recover.

### A GOOD SUGGESTION FOR BRYAN

Gatesville Messenger.

We have had it suggested to us, and the suggestion strikes us with a good deal of force, that the swinging sign across the sidewalks should be done away with. It is contended that they are dangerous, a great inconvenience and that it would hurt no one if all would adopt the plan. We had another suggestion anent the same question to the effect that the city council should by ordinance do away with them, and it is not improbable that the matter will be brought up to this body soon by petition. Other towns have already done this and not one of them, that we ever heard of, regrets the step.

Education is that quality of a man's soul that enables him to understand life in the broadest sense. It does not always follow an amassed knowledge of books. It is valuable only as it brings the greater usefulness to its owner. \* \* \* It is a great thing to be able to step back from your troubles of today, and view them, if possible, as they will appear one year from today. Most of them will seem of trivial importance, weighed in the great scale of human events. The best life is the one that is most active—the one in which there are no regrets. This will be the result, if we keep up our nerve, and live the life that each day brings.—Alpine Avalanche.

Rev. W. H. Shepherd, a missionary from Africa, under the direction of the Committee of Foreign Missions, will speak at the opera house Wednesday night. Services begin at 7:45 instead of 8 as published yesterday. Rev. Shepherd is a man of note, peer to any of his race, fellow of the Royal Geographical Society of England and a hero in his devotion and sacrifice to his race. The gallery will be reserved for the colored people. Come, one come all and hear from a living witness of the great continent first waking to the light of civilization.

The district conference of the A. M. E. church will convene in Bryan April 26 for a four or five days meeting. There are seven or eight counties included in the district embracing Houston, Palestine, Marlin, Caldwell, Brenham and other points. There will be a large attendance of delegates, and Bishop Evans Tyree of Nashville, Tennessee, will preside. Rev. K. W. Hardy, pastor of the A. M. E. church, is making arrangements for the meeting.

A petition to the city council is being circulated by the right-of-way committee of the Bryan-College electric railway asking for a franchise over the streets of Bryan for construction purposes. The petition provides that the franchise shall revert back to the city in twelve months if actual work has not begun, and further that at the expiration of two years the franchise will not hold over streets not utilized for tracks.

C. G. Parsons has purchased eight blocks of ground in the northwest part of town, and is considering a plan to establish a park on the property, but has determined nothing definite regarding the matter.

#### THIS COW

Is well worth \$75.00, but can be bought for less money. Read something about her as shown by the following letters:

I bought of W. P. Connelly last September, the mother of the young Jersey cow he now offers for sale. I gave \$40.00 for her, and after owning her six months, and finding what she is, I would not sell her for less than one hundred dollars, and would not care to sell her for that. Gives three gallons of milk and one and one-quarter pounds of butter per day. J. V. Brogdon.

That's the mother of the cow I have for sale. Here is a letter describing the latter:

I have been milking Mr. Connelly's cow the past year. She is now two and a half years old. Had a calf fifteen months ago, (Feb. '03) and since then has been giving most of the time two gallons per day, and over four pounds of butter per week. Will bring her second calf soon, when she will, of course, greatly increase her yield of milk and butter. Is practically full blood Jersey, her mother being seven-eighths and her sire full blood. A. & M. college strain. I consider her an exceedingly good little cow. W. F. Miller.

I will sell this cow for \$50.00 cash, if sold soon. Can be seen at W. F. Miller's residence, corner Ursuline Avenue and Preston street. 109-27 W. P. Connelly.

#### CAPTAIN ARRESTED.

Charged With Complicity In Supposed Military Plot.

Paris, April 11.—Captain Volpert of the Eleventh Infantry has been arrested on a charge of complicity in the supposed military plot against the security of the state. It was announced from Paris April 5 that 8000 army cartridges had been discovered in the house of a man named Meyer in the suburbs of Paris and that a supply of rifles was found later. These researches, it is added, were the result of recent seizure of 500 uniforms in the residence of Captain Tamburina, a retired officer. The authorities at first did not consider the affair as serious, but the subsequent opinion was a genuine conspiracy was being hatched.

#### ENORMOUS DEATH LIST.

Thirteen Thousand, Four Hundred and Twenty-Four Earthquake Victims.

Lahore, India, March 11.—Commissioner Jullunder reports as the result of his investigations of estimate of fatalities resulting from recent earthquake in the Kangra district at 10,000 and in Pallampur district at 3000. The total number of persons killed at Dharmasala is 424, besides Gurhas who were crushed to death by falling of stone barracks.

#### Only Six Injured.

Topeka, Kan., April 11.—Only three passengers were injured, and they slightly, in the rear-end collision of two passenger trains on the Atchison, Topeka and Santa Fe railway at Kinsley, Kan. Three of the crew were injured. J. A. Burnett, a porter, and Frank J. Breeve, a fireman, were seriously hurt. The injured passengers are Frank B. Lord, Thomas B. Moore and Thomas M. Davis.

#### Contagious Diseases on Board.

San Francisco, April 11.—Sixty passengers who arrived by the steamship Manchuria have been denied landing by United States Immigrant Commissioner Northrup on recommendation of the Federal quarantine officer. They are found to be afflicted with trachoma and other contagious diseases.

fore Justice Maddox in the supreme court in Brooklyn.  
At the opening of the hearing Samuel Untermyer, acting as attorney for James H. Hyde and William H. McIntyre, respectively first and fourth vice presidents of the society, asked leave to intervene in the proceedings. He said the interests of his clients were vitally involved and that they should have an opportunity to present their side of the case before the court should reach a decision. Untermyer was given two days in which to file a brief.

#### NOT DISPOSED OF.

**Land Bill Was Taken Up and Partly Acted on by Senate.**

Austin, April 11.—Committee substitute to the land bill which provides for sixty days' notice of expiration of leases by newspaper publication and for sealed bids, land to be awarded to highest bidder, and if two bids are same new bids to be called for, was adopted by the senate Monday.

Senator Looney offered an amendment which provided that the applications to purchase school lands shall be made to the land commissioner, who shall make the sales, instead of the county clerk, as provided in the substitute, and requires all applications to be opened at the same time in the presence of interested or appointed parties. Adopted.

Pending business was displaced by final passage of house bill providing that franchise taxes shall be paid on the "authorized" capital stock instead of "paid-up" capital stock of corporations.

Senator Harper introduced a resolution to reduce the clerical force during the anticipated special session. It went over.

Senator Decker made two ineffectual attempts to take up the militia bill.

#### HCGG IN HOUSE.

**If Health Will Permit Former Governor Is to Speak.**

Austin, April 11.—A resolution by Mr. Peeler, inviting Hon. J. S. Hogg to a seat on the speaker's stand was unanimously adopted in the house Monday, and, amid vociferous cheering, Mr. Hogg was escorted to the stand by Messrs. Peeler, Marsh and Shannon.

Speaker Seabury introduced the former governor as a plain American citizen and the latter said: "I must not impede the progress of this house by making a speech. I appreciate this compliment deeply. I will thank you now, to-morrow and at all times, for this clever demonstration."  
The remarks were received with prolonged applause.

A resolution by Messrs. Webb and Hudspeth, inviting former Governor Hogg to address the members of the house at such time as was convenient to him, was unanimously adopted.  
Former executive promised to do so if health would permit.

#### SIX HUNDRED ON BOARD.

**Steamer Wittkin, Bound For Galveston, Has That Many Passengers.**

Galveston, April 11.—A cablegram was received here by Alfred Holt announcing the sailing of the North German Lloyd steamer Wittkin from Bremen with 600 passengers for Galveston. The arrival of this ship on inaugurates the first direct sailing from Bremen to Galveston on the new schedule published by the North German Lloyd Steamship company, and easily breaks all records for the number of passengers brought to the port on one vessel.

#### FOREIGN SOURCES.

**Russia's Only Information of Fleet Is Thus Received.**

St. Petersburg, April 11.—Russia's information regarding Rojstvensky's fleet, its location, destination and intentions, is based solely on foreign dispatches which are all too meagre to prevent a quick rising crop of rumors, according to one of which the adverse fleets have already joined in battle. Others of these dispatches are attempting to locate variously the battleship division of the squadron. The admiralty steadfastly professes its inability to impart any light or clarify the situation and there is reason to believe the profession is made in good faith at least as applies to all except the very highest officials.

The admiralty informed the Associated Press that the report received Monday was not from the commander of the squadron, but the captain of a merchant ship who had encountered the fleet and reported to the Russian consulate at Singapore.

Some naval officers conjecture the four battleships are delaying in order to effect a junction with Vice Admiral Nebagotoff's squadron. The general credence is given to the report that the battleships are taking a southern route to Sunda straits, the selection of the Singapore route being regarded as in the nature of a feint and to minimize the danger of a torpedo boat attack on the mainstays of the fleet.

Meanwhile events in Manchuria have come to a pause and at home the main attention is being given to the work of Bordieau commission, which is charged with formulating the plan for the representative assembly promised by the imperial rescript of March 3. The commission is meeting twice weekly and in private. The statement that the preliminary report of the commission will be ready before Easter is incorrect. The amount of material for its consideration is too great to permit of this.

The summary closing of the lawyers' congress in St. Petersburg in the midst of the opening session of what promised to be a repetition of the Moscow conference of doctors demonstrates the high hand with which Governor Treppoff is managing the difficult situation.

Revolutionaries contrived an impromptu meeting in front of the Putloff Iron works at the hour for beginning work. An immense crowd of workmen was attracted and revolutionary speeches were made, red flags produced and proclamations distributed. Six policemen who attempted to disperse the crowds were roughly handled, but the assemblage scattered at the approach of the police reserves.

Anti-Semite proclamations have been issued at Smolensk and Orel and posted at fence corners in that section of Russian calling upon the people to rise beat the Jews, with whom the proclamations link students. The effect of this incitement in the present condition of affairs in the rural districts is feared.

#### Rumored Naval Battle.

Chicago, April 11.—A special to the Daily News from Hongkong says: "It is reported here that two sections of the rival fleets clashed near Singapore Monday morning and that Togo lost five vessels. The rumor is not given much credence."

#### EIGHT HOUR DAY.

**Chief Engineer Wallace Says Uniform Time Cannot Be Made.**

Washington, April 11.—Chief Engineer Wallace of the Isthmian canal commission had an interview with Secretary Taft in which conditions on the canal were discussed. Afterward Mr. Wallace met members of the commission who are in the city. Members of the commission are anxiously awaiting the decision of Attorney General Moody upon the right of the commission to

JOHN F. WALLACE.

employ labor for more than eight hours per day. There is a prevailing belief that the eight hour law does not apply to canal zone. Engineer Wallace says it will very seriously impede the work to have the eight hour law in effect in construction of the canal. It will be impossible to make uniform hours for all labor, he says, because some labor must be employed twelve hours while ten hours is the regular rule for most workmen.

#### MASTER PRINTERS MEET.

**No More Contracts With Organized Labor and Against Eight-Hour Day.**

Kansas City, April 11.—The Employing Printers' Association of the Southwest was organized here Monday at a special meeting called by the Typothetae of Kansas City and St. Louis and attended by 200 delegates from Missouri, Kansas, Colorado, Arizona, New Mexico, Texas, Arkansas, Tennessee, Louisiana and Mississippi. The officers selected were as follows: E. S. Hart, St. Louis, president; S. J. Harbaugh, St. Louis, secretary; Frank Lynn Humson, Kansas City, treasurer. An almost unanimous sentiment was shown among the delegates against entering in the future into any further contracts with organized labor and also against the eight hour day.

#### USED CLUBS.

**Scenes of Violence Marked Teamsters' Strike at Chicago.**

Chicago, April 11.—Scenes of violence marked the first attempt to move freight from the Montgomery Ward building, where the teamsters are on strike. Police were compelled to use their clubs freely. Three wagons, headed by two patrol wagons and accompanied by seventy-five policemen, started for the Rock Island freight sheds, at Polk and Sherman streets. The caravan was followed by nearly 10,000 persons. Numerous missiles were thrown along the line of march. While the wagons were passing the approach to the Polk street viaduct the crowd began to throw stones. As the police charged the mob the procession of wagons halted. A way was finally cleared with clubs.

#### CIRCULATORS CONVENE.

**Present System of Returning Unsold Papers Is Condemned.**

Shreveport, April 11.—The Southern Association of Newspaper Circulators met in annual convention here with representatives from a number of southern cities. Resolutions were adopted condemning the present system of returning unsold papers and calling upon the Southern Publishers' association and the National Editorial association to adopt a rule limiting the return of papers by railway news agents to 10 per cent of the number they take out.

#### ALL INVITED.

**Members of Every Veteran Association Requested to Be Present.**

Washington, April 11.—Two days of greeting of American soldiers who opposed each other in battle in the 60's has been arranged to take place here May 11 and 12. Cordial invitations to participate have been sent every veteran association north and south. The programme contemplates more than thirty speeches of greeting and responses with an address of welcome by General Charles Grosvenor of Ohio. Other speakers will be General Chase, past department commander of the Grand Army of the Republic, and Captain Griffith and General Rosser, the youngest brigadier generals in the Confederate army.

#### EBELT ELECTROCUTED.

**Dies in the Electric Chair For Murder of His Young Wife.**

Ossining, N. Y., April 10.—Martin Ebelt, who murdered his young wife at Mount Vernon, paid the penalty for his crime in the electric chair at Sing Sing Monday. Ebelt strangled his wife to death July 24, 1903. The young was nineteen years old and Ebelt twenty-two. Jealousy was the motive.

#### ALABASTINE YOUR WALLS

Typhoid Fever, Diphtheria, Small Pox—the germs of these deadly diseases multiply in the decaying glue present in all kalsomines, and the decaying paste under wall paper. ALABASTINE is a disinfectant; it destroys disease germs and vermin; is manufactured from a stone cement base, hardens on the walls, and is as enduring as the wall itself. ALABASTINE is mixed with cold water, and any one can apply it. Ask for sample card of beautiful tints and information about decorating. Take no cheap substitute. Buy only in 5 pound packages.
